

Protiviti assists organisations develop, implement, and maintain a privacy program to manage personal information in compliance with the **Australian Privacy Act (Cth) 1988** and other applicable legislative and regulatory requirements. Protiviti's *Privacy as a Service (PaaS)* offering provides a number of solutions tailored to fit your organisation's privacy obligations:

Privacy as a Service Offerings

<p>Privacy Officer + Team Appoint a Protiviti team member to act as your organisation's Privacy Officer to manage day-to-day privacy and data protection operations, as well as provide a team of dedicated privacy resources where required.</p>	
<p>Ongoing Compliance Develop policies and procedures including Privacy Policy, Data Classification & Handling, Records Retention, etc. Assist in delivering data protection and privacy training and awareness.</p>	
<p>Privacy Impact Assessment Conduct PIAs across systems and processes to validate compliance and identify opportunities to strengthen privacy controls.</p>	
<p>Third Party Management Assess third party suppliers' privacy and data protection capabilities. Respond to and facilitate similar assessment requests from your organisation's partners.</p>	
<p>Information Security Assess current state security capabilities and assist in implementing security controls and technologies to uplift maturity and protect the confidentiality, integrity and availability of information.</p>	
<p>Breach Response Develop and implement mechanisms to prevent, detect and respond to data breaches. Develop procedures to report suspected and confirmed breaches in compliance with the Notifiable Data Breaches (NDB) scheme.</p>	
<p>Privacy Notifications Create mechanisms to inform and notify individuals about personal information processing in an open, transparent, and compliant manner.</p>	
<p>Consent Management Implement mechanisms to effectively manage customer consents and permissions.</p>	
<p>Request Handling Respond to individual requests for access to and correction of personal information. Liaise with data protection and privacy authorities where required.</p>
